Our Unique Features & Benefits

Stairs

Features & Benefits

	Cost benefit	Installation benefit	Performance benefit	Site H&S benefit	Site waste benefit
Factory applied tread protection Slip resistant peel-off tread protection applied as standard	✓	✓	✓	✓	✓
Pre-drilled wall strings Wall strings pre-drilled at optimum fixing positions making installation and subsequent inspection easier		✓	✓	✓	
REVIT BIM model output Stair output as a 3D REVIT model as standard, enabling efficient resolution of design queries	✓	✓	✓		
Integrated floor and stair design Ensuring the stairwell opening size is coordinated between the stair design and the floor design	✓	✓	✓	✓	✓
Stair installation guidance Industry leading site installation guidance	✓	✓	✓	✓	✓
Quality assured manufacturing Our stair spec/production is 3rd party accredited, and meets BWF & ISO 9001 quality standards		✓	✓		
Temporary timber guardrail The only EN 13374 temporary edge protection system using timber	✓	✓		✓	✓
Demountable balustrade Allowing removal for ease of access for bulky items & opportunity to change specification in future	✓	✓			
Stepped bulkhead option Our unique stair construction enables greater headroom and consistent finish beneath the stair	✓	✓	✓		✓
Superior balustrade strength Unique mortice and tenon baluster connections afford greater balustrade strength		✓	✓	✓	

Floors

Features & Benefits

Stiffest i-Joist on the market Longer spans; less deflection or bounce issues	✓	✓	✓		
Superior fire resistance The only i-Joist to permit 12.5mm plasterboard ceilings with no ceiling noggings	✓	✓	✓	✓	
Pre-drilled service holes Any size/shape holes for pipes and services can be pre-drilled in our factory (at no added cost)	✓	✓		✓	✓
3D construction details via APP Access 3D details for each floor from QR codes on our framing plans and i-Joist labels		✓			
No sacrificial i-Joists needed Our reusable 'WellSafe' system avoids the need for sacrificial i-Joist, hangers and decking	✓	✓		✓	✓
'Working platform' design option Allows the floor to be used as a working platform without the need for propping beneath	✓	✓	✓	✓	
Pre-fitted end blocks End blocks are factory fixed where i-joists are built-in to masonry (at no added cost)	✓	✓	✓		✓
Automatic padstone design check Possible padstone requirements flagged for engineers approval	✓		✓
