

Incorrect Stair Storage Costs Time & Money

Poor storage may result in replacement items, additional customer care visits and low CQR scores.

Internal Joinery Storage Recommendations

Staircases

Store 1st fix Stairs in a designated container, or a dry garage/property, off the floor on bearers, with the wall string at the bottom.

Storing Balustrades & Stair Components

Store 2nd fix balustrades and stair components in a designated container with shelving to hold loose components and cantilever brackets to suspend balustrades.

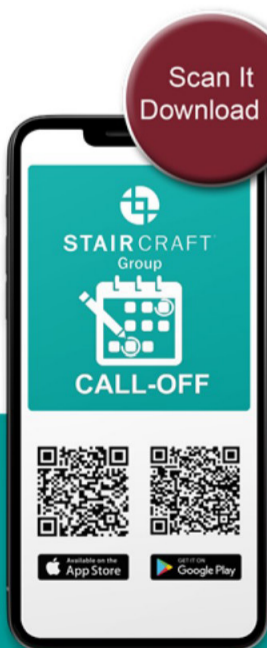

It is important to store stair components in a clean, well ventilated, water-tight area protected from damp and direct sunlight.

Store in the correct order in line with build requirements. Plan your Call-Offs and Deliveries to be closer to the scheduled installation, minimising storage time on site.

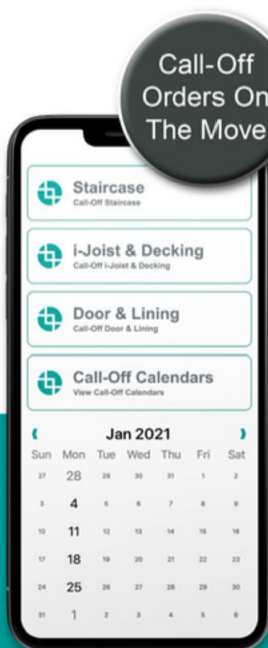

If you have any queries, please get in touch with your designated contact or email sales@staircraftgroup.com
