

Regulation Compliant Floor-Kit Options

Following extensive testing, our ground-breaking Robust Fire Floor Detail ticks all your regulatory requirements.

Our new Robust Fire Floor Detail benefits the housebuilder, the installer and the homeowner.

GUARANTEED SAVINGS

- Save up to £50 per plot
- Robust Detail achieved using 12.5mm Plasterboard
- Factory Cut Floor Decking saves up to 20/30% in waste

MATERIAL CHOICE

- Any of the 3 Plasterboard Manufacturers
- Any type of Floor Decking (Chipboard, OSB, Plywood)
- Any Floor Decking thickness 18mm or 22mm - dependent on i-Joist spacing

SAFER

- The safest & most fire-resistant i-Joist on the market
- It's 30% safer, averaging an extra 9 minutes to escape fire

EASIER & QUICKER INSTALL

- 12.5mm Plasterboard is 23% lighter than 15mm = 7kg less to handle
- No Plasterboard perimeter noggings needed

DESIGN FREEDOM

- 7 i-Joist permutations at spacings up to 600mm
- 40+ Downlight Manufacturers approved
