

# The best performing floor kits on the market

Our specially designed floor kits enable you to save at least 1 hour on installation, and reduce waste costs by up to 75%.

## The first i-joint to be listed in the STAs

Our i-joints are 30% safer than fire regulation requirement, which takes 9 more minutes to escape from a fire.

## WellSafe™ System

No sacrificial joists or decking as reusable.

## Superior fire resistance

Permitting 12.5mm plasterboard ceilings to reduce costs and make installation easier.

## Factory cut holes for service runs

## Waste free factory cut decking

## Perimeter notch detail

Removing the need to site cut/install traditional perimeter noggings.

## Full working platform designs

Avoiding the time and cost of temporary underpropping, and no scaffolding to install or remove.

## Factory fixed hole reinforcement

Avoids SVP trimming zones and saves up to 10% on floor framing costs.

## Factory fixed end caps

For a quicker install with no mastic required. Saves up to 5% on end block costs & installation time.

## Unique i-joint labelling with QR code links

## Stiffest i-joint on the market

Key: Saves time Saves money H&S benefit Avoids squeaks Applies to masonry Applies to timber
